TELECOM SUPPORT POLICY: HOME WIFI & BROADBAND OUTAGES

Document ID: POL-WIFI-TECH-2026 | Effective Date: January 2026

1. Red Light & No Internet Diagnostic Procedure

When a residential customer reports a red light on their router:
- Step 1: Perform 30-second power cycle (unplug power cable, wait 30 seconds, plug back in).
- Step 2: Ensure the green optical cable clicked firmly into the ONT box.
- Step 3: CSR performs a remote line diagnostic check from CRM console.

2. Free On-Site Technician Dispatch Guarantee

If power cycling does not restore internet connectivity:
- Schedule an Urgent Free On-Site Technician Dispatch.
- Dispatch SLA: Within 4 hours for Priority/Work-From-Home accounts, within 24 hours for standard accounts.
- Visit Fee: $0.00 (100% Free for network/hardware faults).

3. Emergency 5G Backup Mobile Data

During WiFi downtime, CSR agents are authorized to add 50GB of free emergency 5G mobile data to the customer's phone while waiting for the technician to complete the repair.
